Software Engineering Experience

General Assembly | Boston, MA — June 2020 - September 2020
Software Engineer

`JavaScript` `React` `MongoDB` `Django` `jQuery` `Python`

- Full-time 600+ hour web development immersive program.
- Analyzed project requirements to find bugs and eliminate issues.
- Utilized GitHub and Git for version control and collaborative work.
- Created documentation for my own API's.
- Employed publicly available documentation (for API's, libraries, and frameworks).
- Developed four full stack web applications using Javascript, HTML, CSS, React, and Python.

Web Development Projects

ResGenie — September 2020 - Present
Software Engineer

`JavaScript` `React` `Webpack` `ESLint`

- Created a web application that converts JSON into a preformatted resume.
- Wrote a custom webpack config for Javascript bundling and optimization.
- Set up ESLint and Prettier with pre-commit Git hooks for code consistency.
- Researched and implemented third-party packages for rendering PDFs on the web page.

Medi+Thanks - 2020 GA Hackathon Winner — December 2020 - Present
Software Engineer

`JavaScript` `React` `MongoDB` `Express`

- A web app for frontline medical workers to receive appreciation for their work.
- Spearheaded a hackathon winning fullstack application.
- Collaborated with UX designers to implement an intuitive user experience.
- Set up authentication with three other engineers.

Kettle — July 2020 - August 2020
Software Engineer

`JavaScript` `React` `MongoDB` `jQuery` `Express`

- Created a social media app based and modeled after twitter.
- Collaborated with a group utilizing Scrum and Agile methodologies.
- Developed a responsive UI.
- Users can CRUD resources.

Previous Work Experience

Double Cut | Poconos, PA — 2019 - 2020
Assistant Manager

- Maintained high standards in regard to cleanliness and organization
- Adopted and implemented best practices to encourage high quality.
- Self-managed several million dollar projects for the restaurant.

Kalahari Resorts | Poconos, PA — 2016 - 2019
Assistant Purchaser

- Voluntarily attended over 100 hours of team building and leadership training.
- Organized and stored records of invoices, requisitions, and delivery forms to keep for reporting.
- Coached new employees on the value of our delivery systems.
